ABOUT ME

Results-driven RPA Developer and Full Stack Developer with expertise in UiPath automation, web application development, API integration, and compliance systems. Experienced in building end-to-end automation solutions and client-facing portals that streamline operations and deliver measurable business value.

SKILLS

- UiPath (Studio & Orchestrator)
- React, TypeScript, FastAPI, PostgreSQL
- Data Extraction & Web Scraping
- VB.NET & Python Scripting
- API Integration (REST, JSON, Webhooks)
- Excel VBA Macros & Google Sheets

PROFESSIONAL EXPERIENCE

ABACUS CONSULTING — Client: Fragomen

Full Stack Developer / RPA Developer

Feb 2026 – Present

- Built the Nitaqat Saudization Compliance Portal using React, TypeScript, Python FastAPI, and PostgreSQL — tracking HR localization compliance across 14 profession categories and 5 nationality-based quotas.
- Developed a two-way predictive compliance simulator aligned with official MHRSD and Qiwa thresholds, enabling clients to model permissible expat hiring based on Saudi national additions and vice versa.
- Implemented role-based access control (SuperAdmin, Admin, HR Manager) with JWT authentication, 90-day password expiry, and full audit logging of all user activity.
- Designed Excel VBA macro systems for Business Visa risk scoring across five modules — automating applicant classification, scoring logic, and visa category recommendations for client HR teams.
- Engineered the backend compliance calculation engine in Python including GCC national, Ajeer worker, and special-case headcount handling with division-by-zero guards.

SYBROS TECH

RPA Developer

Oct 2024 – Jan 2026

- Designed and deployed end-to-end RPA solutions using UiPath across sales, logistics, and finance operations, integrating with HubSpot, Unleashed, Shopify, MachShip, and Google Workspace via REST APIs and webhooks (50 + automation processes).
- Automated email-driven workflows with Outlook integration for LLM-based ticket categorization and CRM updates; built data extraction bots for websites, portals, and mobile app interfaces.
- Used VB.NET, Python, and JavaScript for advanced scripting within UiPath workflows; managed Orchestrator scheduling, exception handling, and built Power BI dashboards for automation KPI tracking.

UNIVERSITY OF CENTRAL PUNJAB

Final Year Project

Mar 2023 – Jul 2024

- Developed an intelligent university admissions assistant using RAG, real-time speech interaction, vector database search, and Nvidia Audio2Face. Stack: HTML/CSS/Bootstrap, Flask, Mistral 7B.

EDUCATION & CERTIFICATIONS / EXTRACURRICULAR ACTIVITIES

UiPath Certified RPA Developer

Automation Developer Associate

Data Analytics and Visualization Certification

Accenture North America

Bachelor of Computer Science 2020 – 2024
